If booking is cancelled within 7 days to 1 day prior to check in date, 100% cancellation will be charged. In case of no show, 100% cancellation will be charged.

Provisional Request
For Hotel

3)ProvisionalRequest For Hotel

If the isPostSearchRoomingApplicable tag present in the HotelSearchReponse xml then the BookingRequest and the Provisional request can contain different Room combination id's else the Room combination id's should be same.

If the allocation id for the hotel is required ,the provisional request is send.Not all the hotels require the provisional request.This is required when “ <isExtraInfoRequiredForBooking>” contains 'Y' and “<AllocationStatus>” contains 'A'.

(1)Sample Provisional request XML ::-

```
<ProvisionRequest>
  <clientinfo>
    <companycode>ezeego</companycode>
    <username>ezeego@ezeego1.com</username>
    <password>ezee123</password>
  </clientinfo>
  <ProvisionDetails>
    <searchId>SRHOT896</searchId>
    <HotelInformation>
      <HotelTrackId>HTRI629</HotelTrackId>
      <NoofRooms>2</NoofRooms>
      <RoomDetails>
        <RoomCombId>RCMB001828</RoomCombId>
        <RoomNo>1</RoomNo>
        <RoomCode>SGL_1</RoomCode>
      </RoomDetails>
      <RoomDetails>
        <RoomCombId>RCMB001829</RoomCombId>
        <RoomNo>2</RoomNo>
        <RoomCode>DBL_2C</RoomCode>
      </RoomDetails>
    </HotelInformation>
  </ProvisionDetails>
</ProvisionRequest>
```

(2)Provisional Request Parameters:-

The Provisional request has the following mandatory and optional parameters for search of hotels.

NAME	TYPE	DESCRIPTION/Sample Values	Mandatory/Optional
companycode	String	ezeego	Mandatory
username	String	ezeego@ezeego1.com	Mandatory
password	String	eze123	Mandatory
searchId	String	SRHOT896	Mandatory
HotelTrackId	String	HTRI629	Mandatory
NoofRooms	int	2	Mandatory
RoomCombId	String	RCMB001825	Mandatory
RoomNo	int	2	Mandatory
RoomCode	String	DBL_2C	Mandatory

(3)Detail Description of the tags:

The following table contains tags required in the request XML with a short description of the values needs to be associated with the tags.

NO.	TAG NAME	DESCRIPTION	ELEMENT CONTENT
1	ProvisionRequest	This tag is the root tag in the provisional request xml.	
2	clientinfo	This tag is the sub-element of the provisional request.This tag provides information regarding the client.	
3	companycode	This tag is the sub-element of the clientinfo.This tag provides information regarding the code of the client.	ezeego
4	username	This tag provides name of the user.	ezeego@ezeego1
5	password	This tag provides the password of the user	eze123
6	ProvisionDetails	This tag is the sub-element of the ProvisionRequest tag.This tag provides information of the provisional request provided by the user.	
7	searchId	This tag is the sub-element of the ProvisionDetails tag,this tag provides information regarding the search id	SRHOT896
8	HotelInformation	This tag is the sub-element of the ProvisionDetails tag,this tag provides information of the hotel level details.	
9	HotelTrackId	This tag is the sub-element of the HotelInformation tag.	HTRI629
10	NoofRooms	This tag is the sub-element of the HotelInformation tag,this tag defines the number of roomdetails tags to be present in the provisional request xml.	2
11	RoomDetails	This tag is the sub-element of the HotelInformation tag,this tag provides the room level information.	
12	RoomCombId	This tag is the sub-element of the RoomDetails tag,this tag provides the combination id	RCMB001828
13	RoomNo	This tag provides information of the number of the room.	1
14	RoomCode	This tag provides the code off the room.	SGL_1

(4)ProvisionalResponse For Hotel

When the provisional request is send for getting the allocation id, the response is in the following format.

(5)Sample Provisional response XML :-

<ProvisionalResponse xmlns="<http://www.opentravel.org/OTA/20035>">

```

Confidential Document

The screenshot displays a web browser window titled "ezeego1 travels & tours pvt. ltd. - Mozilla Firefox". The address bar shows the URL "http://www.ezeego1.co.in/ezeego1/offlinebookinghotelordercapture.do". The browser's toolbar includes buttons for back, forward, home, and search, along with a search engine dropdown set to Google. The page content shows a booking form for three adults, each with a green header. The form fields for each adult are: Title (dropdown), First Name (text), Last Name (text), Gender (dropdown), Diet (dropdown), Birth Date (Month, Day, Year dropdowns), Flight/Train (dropdown), Flight/Train Name (text), Flight/Train No (text), and Arrival Time (text). The browser's taskbar at the bottom shows various icons and the system clock at 04:43 pm.
